DIGITAL INTELLIGENCE AT THE TOUCH OF A BUTTON

The new Mira Magna gives you more control than ever before, creating the perfect shower every single time.

Stylish, finger-sensitive controls let you set your ideal temperature and flow with the simple touch of a button.

Digital technology means that even if a tap is turned on elsewhere, your shower stays absolutely perfect. And a new ergonomic handset delivers the water to absolute perfection.

Enjoy more control for the ultimate showering experience.

Enjoy Mira Magna.

Design and styling

PERFECT CONTROL

PURE PLEASURE

ONE TOUCH

Clean, elegant lines. Discreet back-lit buttons. The Mira Magna won't just give you more control. Its sophisticated looks will enhance your bathroom too. And because the digital mixer unit can be positioned separately from the shower, you'll enjoy a pure, simple and clean shower space that looks stunningly contemporary.

The technology

THE INTELLIGENT DIGITAL SHOWER: AT THE TOUCH OF A BUTTON

The Mira Magna uses digital intelligence to give you more control than ever before. No more avoiding a cold spray when you turn on the flow. No more feeling the water to see if the temperature's right. Simply use the warm-up for your favourite temperature and the finger-sensitive buttons for your ideal flow.

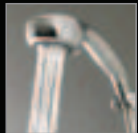

You can even lock your Magna to create the perfect shower every time – and make it totally safe for all the family.

SPRAY PATTERNS

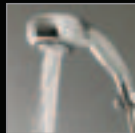

Choose from Magna's four spray patterns. Start, with its wide radius and strong flow. Champagne, refreshing and aerated. Massage, a pulsating and soothing spray. Or Eco, the water-efficient option.

MIRA APPLIED TECHNOLOGY™

Mira have been making showers since 1921 and have led the way in technological innovation. Now the digital age is here we've stayed true to our principles of groundbreaking design and high quality engineering to create Magna, a new generation of shower.

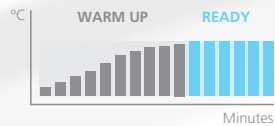

Combining the latest digital technology with Magna's quality, reliability and style ensure that this shower will provide the ultimate showering experience.

THE WARM UP >

Know when it's ready

Touch the Magna Warm Up button and after a second the flow begins. Once it's reached your favourite temperature, the flow then turns off. The button glows to show it's ready and waiting.

Warm Up

EASY FLOW SETTINGS

Constant perfection

Magna checks the water temperature an incredible 40 times a second when you press the low, medium or high flow rate. The temperature you choose is the temperature delivered, time after time.

Keeping your finger on the pulse

Magna's buttons beep and light up when pushed, so you always know the exact settings you've chosen.

TEMPERATURE CONTROL

Precision control

A light, smooth rotating dial lets you control the temperature quickly and easily with incredible precision. The maximum temperature can be set for additional protection.

STUNNING FINISH

Polished chrome with satin controls and trim.

LOCK / COUNTDOWN

The ultimate in safety

Make sure the children never get into an unsafe shower, thanks to an easy to use safety lock.

Easier than ever before

Mira Magna can be pre-set to run for a desired length of time. Or you can simply turn it off with your fingertip.

The Mira Magna range

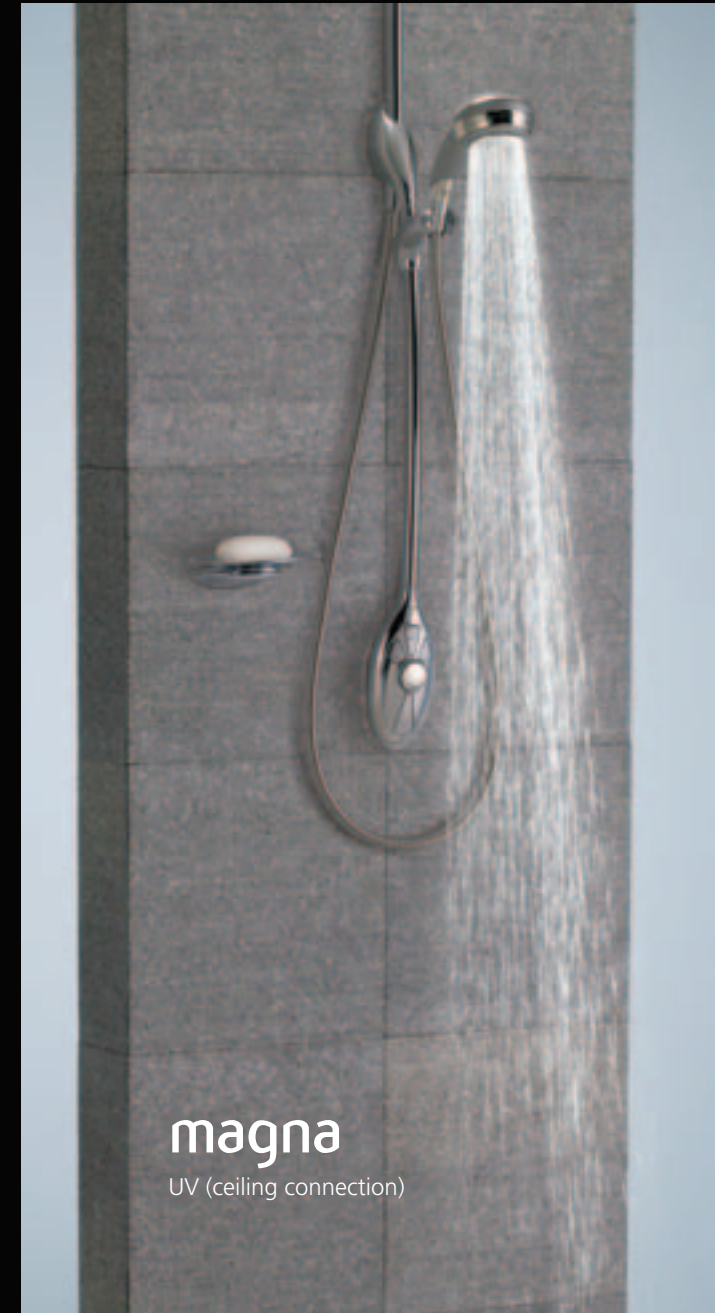

THE INTELLIGENT DIGITAL SHOWER: DESIGNED TO FIT YOUR LIFESTYLE

A modern product deserves thoroughly modern styling. The Magna is available in two variants – UV, for wall or ceiling mounting, and BIR, for a minimalist look.

Whichever design you choose, you'll know you've got Mira looks married to state of the art digital technology.

Digital Mixer

THE INTELLIGENT DIGITAL SHOWER: A NEW APPROACH

At Magna's heart is the intelligent digital mixer. The mixer can be installed away from the shower itself, in the smallest of spaces. Compact dimensions make it possible to fit within a stud partition or placed within a convenient location.

MAT™ Mira Applied Technology

Mira have been making showers since 1921 and have led the way in technological innovation. Now the digital age is here we've stayed true to our principles of groundbreaking design and high quality engineering to create Magna, a new generation of shower. Combining the latest digital technology with Magna's quality, reliability and style ensure that this shower will provide the ultimate showering experience.

BIR (built-in)

Installation

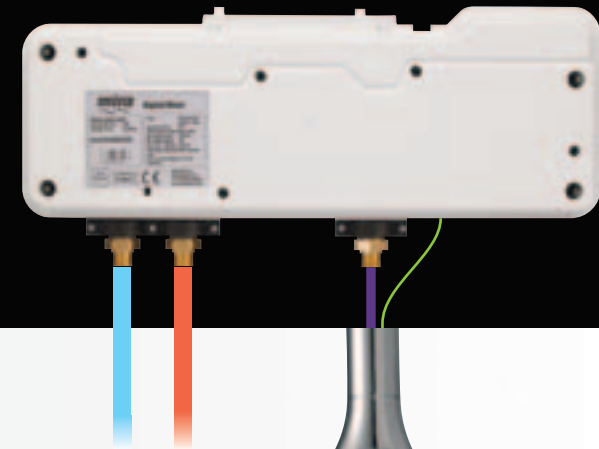

THE INTELLIGENT DIGITAL SHOWER: ONE MAN FIT. WORKS WITH ANY SYSTEM

Magna has been designed to make installation as easy as possible. The separate digital mixer unit fits in just about any available space, or just about any orientation. And as the control and fittings can be mounted on existing tiles, there's minimum disruption too. Of course, all this comes with the Mira commitment to quality, not to mention a five year guarantee.

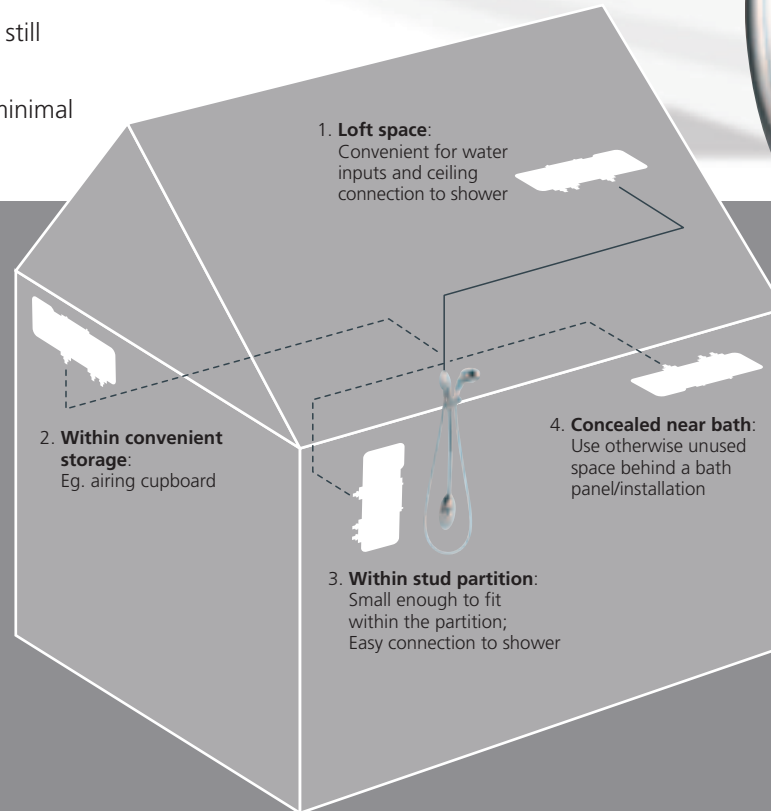

- Fit-and-forget installation.
- Connects to all systems.
- Pumped or high pressure digital mixer available.
- Easy to fit to pipe work and mains electricity.
- Easy commissioning, with all valve connections external.
- Robust electronic connectors and plug ins, so you know installation will be easy.
- Large filters mean that the shower will still work effectively even if 80% blocked.
- UV option includes ceiling mount for minimal disruption to the bathroom.

Brass connections

- Communication Wire
- Water inputs
- Water output

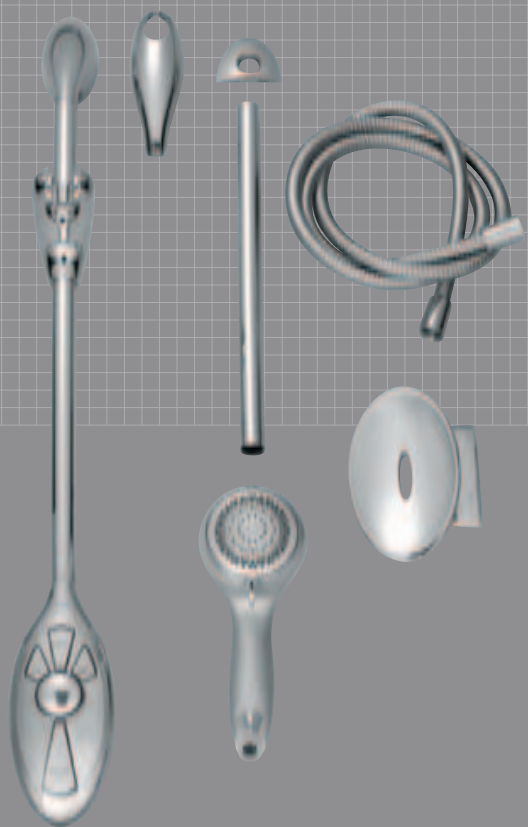

Fit the digital mixer unit where it suits the installation
