

Showermate product guide

Introduction to the Showermate range

There's nothing more irritating than a tap or a shower that's no more than a trickle. Thankfully, the new Showermate from Stuart Turner means it's a problem you need never worry about again. Not only will Showermate give your water pressure a much needed boost, it's also:

- Built to be reliable
- Easy to install

Any of the models available will soon have your fittings in full flow. In fact, the new Showermate is capable of boosting pressure for a wide range of domestic applications:

- Shower
- Shower / Bath
- Tap

Designed to suit any tank fed, open vented system, the new Showermate offers the ultimate solution to poor performance. The new pumps:

- Are fully automatic
- Are supplied complete with flexible hoses
- Offer more power and efficiency than ever before
- Come with a 1-year warranty

The Showermate from Stuart Turner is all you need to solve your pressure problems. Even though the price is extremely competitive, the reliability and quality of each and every pump will never be compromised.

Remember further help and advice is available from Stuart Turner's Customer Support Team on **01491 572655**.

All models in the Showermate range of fully automatic, positive head booster-pumps are ideal for shower and bath / shower installations. All pumps are supplied ready to fit into domestic plumbing systems throughout the UK and are Water Regulation Advisory Scheme (WRAS) compliant. Positive pumps are designed for installation into an open vented water system, where the outlet to be pumped is below the cold water tank, and has a minimum gravity flow of 0.8 l/min. If this is not available, please contact Stuart Turner Ltd.

Positive Twin Pumps

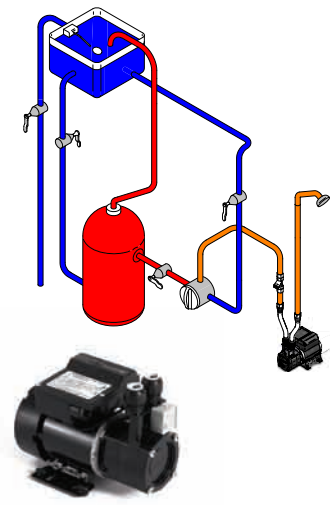

A Showermate twin pump is designed to boost the incoming hot and cold water supply to an individual shower, bath / shower mixer, or mixer tap.

Positive Single Pumps

The Showermate single pump is designed to improve water supplies to single taps or to pump blended water from a shower mixer.
