

## **NEVER DRILL AGAIN**

"Never Drill Again" is a unique and patented method of fixing various accessories to floors and walls - without drilling!

Have you ever asked yourself why there's no alternative to conventional drilling and plugging when it comes to attaching objects to high-quality surfaces like tile, natural stone, glass or steel? A method that ensures a firm attachment and is quick, clean and reversible? With Never Drill Again the solution has finally come.

Combining a high-performance single-component adhesive and a patented adaptor, it lets you mount both heavy and light objects securely – without noise, without dirt, and without causing damage to wiring or vulnerable surfaces. The bond is strong and permanent, and in most cases removal is possible without leaving a trace.

### **Never Drill Again - No Drills, No Damage, No Worries!**
