

# MagnaClean<sup>®</sup>

## Micro 2

### Compact domestic central heating filter

Developed by ADEY, the industry leading water treatment solution provider, to protect central heating systems from damage caused by dirt and debris.

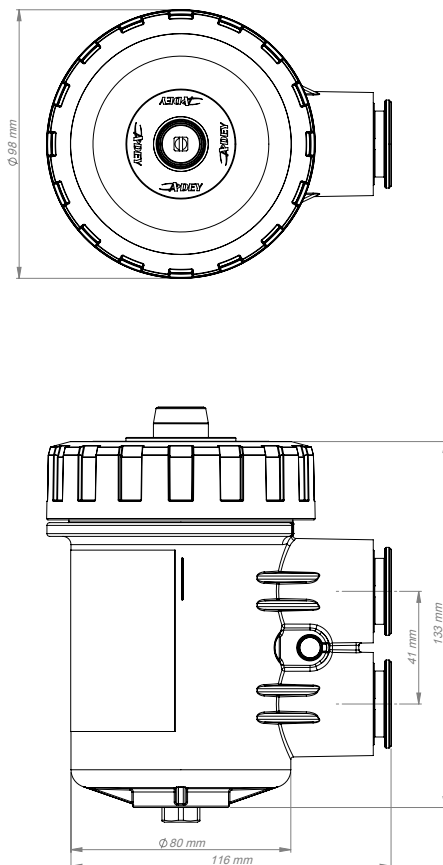

- Removes waterborne system contaminants
- High performance compact filter – Ideal for the tightest spaces
- Rapid fit connectors for fast servicing
- Multiple horizontal and vertical fitting options
- Dosing vessel for ADEY MC chemical range
- Fast, simple installation

### Technical specification

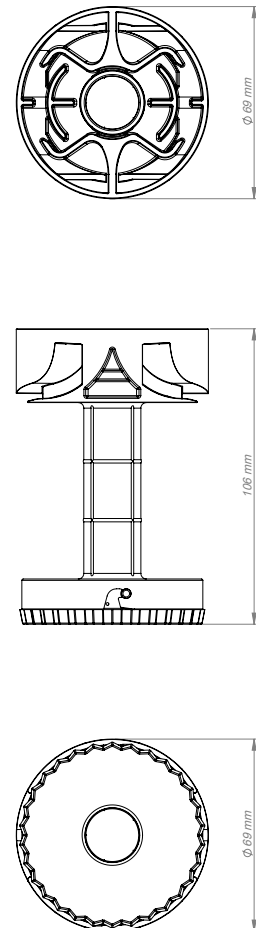

Maximum working temperature: 95°C  
Minimum installation height: 191mm

Maximum working pressure: 6 bar  
Maximum flow rate: 50 L/min

#### Canister

#### Non-magnetic sheath

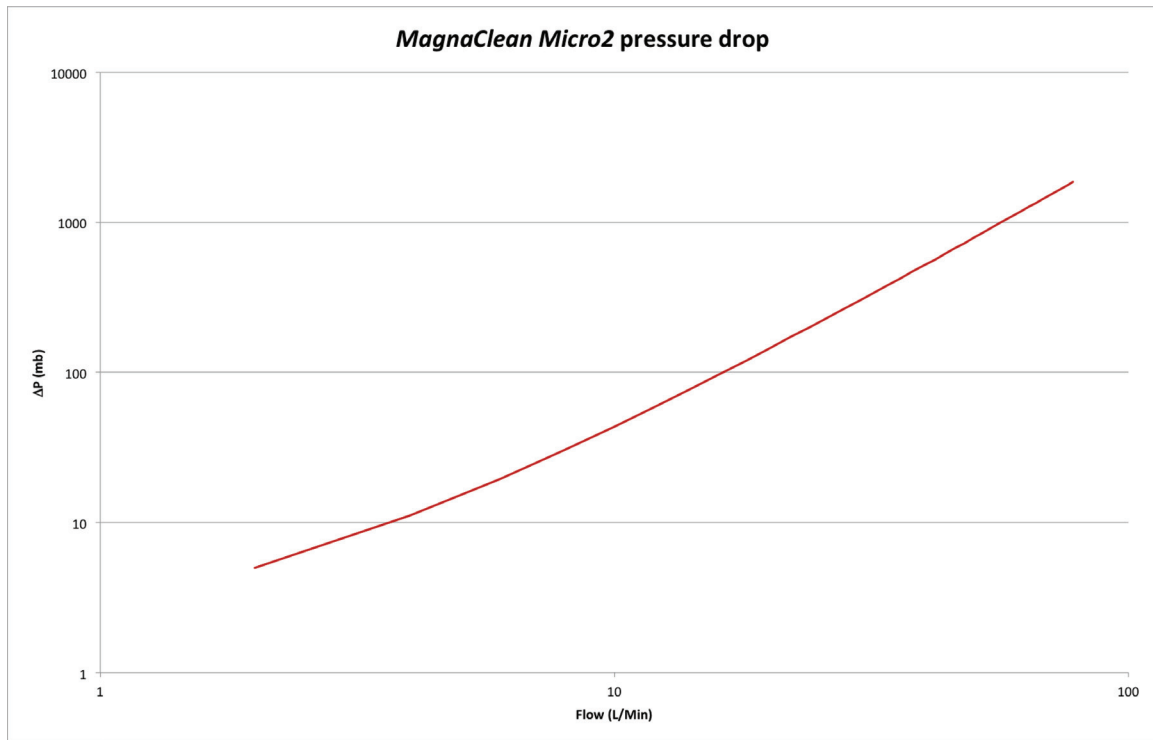

### Packaging and handling

Packaged in single units with all components included

### Storage

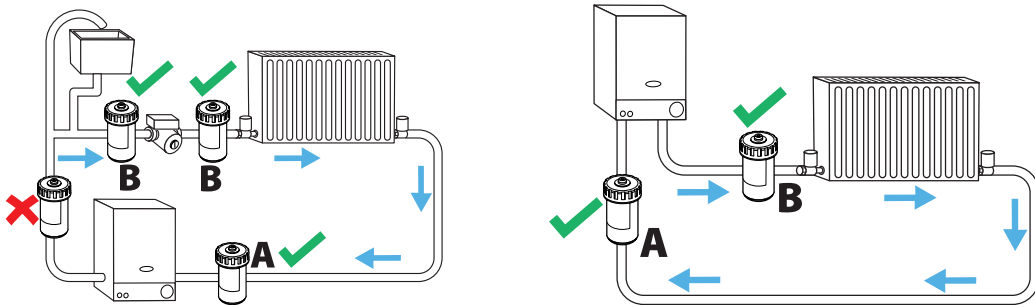

No special storage requirements necessary.

## Flow resistance graph

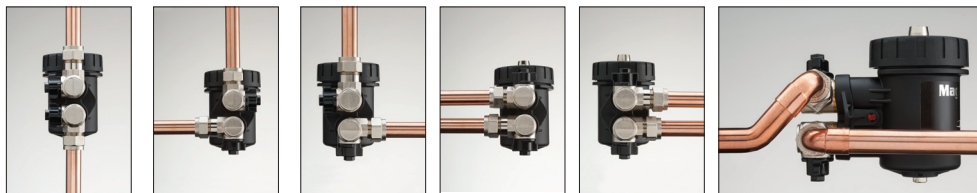

## Product description

An effective compact, efficient in-line rapid-fit filter with excellent first pass filtration performance, to extend the operating life of a domestic wet central heating system; reduce maintenance, heating bills and carbon emissions.

## Application

*MagnaClean Micro's* in-line design enables multiple installation options.

For optimal results, it's recommended that dirty systems should have a *MagnaCleanse* carried out before installation of a *MagnaClean* filter. Always re-dose the system with *ADEY MC1 Protector* following cleaning or maintenance.

For further information on installation and servicing of the *ADEY MagnaClean* range of filters, visit [www.adey.com](http://www.adey.com)
