

### Fast, powerful and precise. For efficient cooking

The 5000 Fast & Powerful induction hob with Powerboost heats twice as fast as a radiant hob. Efficient heating with immediate temperature response for seamless and precise cooking experience.

## Product Benefits & Features

### Heat even faster and more efficiently

Fast & Powerful induction hob ensures efficient heat. The temperature response is fast and precise, ensuring easier and more accurate cooking.

### Quicker heat for extra speed with PowerBoost

A blast of fast. No more waiting around for pots to boil. The PowerBoost function gives you an instant burst of heat. PowerBoost is perfect for tasks that require you to boil a large pot of water quickly.

### Less steps and more control with Direct Touch Controls

The Direct Touch Controls user interface uses intuitive numbers 1-14 so you can set the right temperature right away without having to toggle through the plus and minus buttons.

### Hob2Hood®: The hands-free hood

The Hob2Hood® function connects the hob and the hood. The cooker hood automatically adjusts the fan speed based on the heat, without lifting a finger. For powerful extraction when searing. And quieter extraction when simmering.
