Product Benefits & Features

Heat even faster and more efficiently
 Fast & Powerful induction hob ensures efficient heat. The temperature response is fast and precise, ensuring easier and more accurate cooking.

Hob2Hood®: The hands-free hood
 The Hob2Hood® function connects the hob and the hood. The cooker hood automatically adjusts the fan speed based on the heat, without lifting a finger. For powerful extraction when searing. And quieter extraction when simmering.

Less steps and more control with Direct Touch Controls
 The Direct Touch Controls user interface uses intuitive numbers 1-14 so you can set the right temperature right away without having to toggle through the plus and minus buttons.

Quicker heat for extra speed with PowerBoost
 A blast of fast. No more waiting around for pots to boil. The PowerBoost function gives you an instant burst of heat. PowerBoost is perfect for tasks that require you to boil a large pot of water quickly.
