

Affine Recessed Corner Basin - 585mm

Modern triangular ceramic basin for compatible 585mm corner vanity units

Make practical use of a bathroom corner with the Affine Recessed Corner Basin. Its triangular shape is designed to work neatly with compatible corner vanity furniture, creating a useful washing area and storage combination without demanding a conventional straight run of wall space.

Key features

- **Corner basin design** - makes effective use of corner space in contemporary bathroom layouts.
- **Compatible with Alpine 585mm corner vanity units** - designed to create a coordinated basin and storage combination.
- **Single tap hole** - suitable for a compatible mono basin mixer tap.
- **Built-in overflow** - requires a compatible slotted basin waste.
- **Ceramic construction** - provides a durable, smooth and easy-to-clean surface.
- **Triangular basin shape** - purpose-designed for installation with compatible corner furniture.
- **415mm projection** - provides a practical washing area while making use of otherwise awkward corner space.
- **25-year guarantee** - for long-term reassurance.

What's included

- 1 x Affine Recessed Corner Basin - 585mm

Please note: vanity unit, tap and basin waste are not included.

Good to know

Because this basin has a built-in overflow, a **slotted basin waste** is required. The single 35mm tap hole is designed for a compatible basin mixer. Check vanity unit, tap and waste compatibility before installation.

Product information is based on specifications published on Plumbworld.co.uk. Please check dimensions and installation requirements before fitting.
