

Affine Round Edge Recessed Basin - 400mm

Compact ceramic recessed basin for compatible wall hung vanity units

Create a neat basin and storage combination in a cloakroom or smaller bathroom with the Affine Round Edge Recessed Basin. Its compact proportions, gently rounded front edge and single tap hole give it a clean modern appearance, while the ceramic construction provides a durable, easy-to-clean surface.

Key features

- **Recessed basin design** - made to sit neatly with compatible bathroom furniture for a coordinated finish.
- **Compatible with Regis 400mm wall hung vanity units** - designed to create a compact basin and storage combination.
- **Single tap hole** - suitable for a compatible mono basin mixer tap.
- **Built-in overflow** - requires a compatible slotted basin waste.
- **Ceramic construction** - durable, smooth and easy to clean.
- **Rounded-edge rectangular shape** - softens the contemporary profile while retaining a practical basin shape.
- **Compact cloakroom design** - particularly well suited to smaller bathrooms, en-suites and cloakrooms.
- **25-year guarantee** - for long-term reassurance.

What's included

- 1 x Affine Round Edge Recessed Basin - 400mm

Please note: vanity unit, tap and basin waste are not included.

Good to know

Because the basin has an overflow, a **slotted basin waste** is required. The single 35mm tap hole is designed for a compatible basin mixer. Check vanity unit, tap and waste compatibility before installation.

Product information is based on specifications published on Plumbworld.co.uk. Please check dimensions and installation requirements before fitting.
