

Architekt Flat Mushroom Clicker Basin Waste

Slotted basin waste for basins with an overflow hole

A practical and stylish alternative to a traditional plug, this Architekt flat mushroom basin waste features simple clicker operation and a polished chrome finish. Designed for basins with an overflow, it combines a neat contemporary appearance with robust zinc alloy construction for everyday bathroom use.

Key features

- **Simple clicker operation** - press the top to open or close the waste.
- **For basins with an overflow** - the slotted design allows water from the basin overflow to drain away correctly.
- **Flat mushroom design** - provides a neat, contemporary alternative to a traditional plug and chain.
- **Chrome-plated zinc alloy** - robust construction with a polished finish that coordinates easily with chrome bathroom taps.
- **Easy to clean** - the top section can be unscrewed to allow more thorough cleaning.
- **Standard connection** - G1 1/4 inch basin connection.

Technical specifications

Specification	Details
