

Architekt Press Top Basin Waste

Slotted basin waste for basins with an overflow hole

A practical finishing touch for your bathroom basin, this Architekt press top waste combines simple push-button operation with a polished chrome finish. Designed for basins with an overflow, the slotted body allows overflow water to drain away correctly, while the brass internal mechanism provides a durable design.

Key features

- **Easy press top operation** - press the top to open or close the waste.
- **For basins with an overflow** - the slotted design allows overflow water to pass into the waste.
- **Polished chrome finish** - easy to coordinate with chrome taps and bathroom fittings.
- **Brass internal mechanism** - features a high-quality brass internal mechanism.
- **Standard connection** - G1 1/4 inch basin connection.
