E5701 Vitreous China

Special Notes

Please click the (Specify this) button then configure the bowl by adding one of the sensor flow 21 electronic urinal flushing products. Mains version can power up to 5 link flushing valves or the battery versions can be independent. Please refer to Sensorflow 21 compact flushing device pages, then add as many urinal assembly types: Mains/linked battery as needed in the room schedule. Not suitable for flushing from a cistern and nominal working mains water pressure needed is 3 Br. Urinal fixed to wall with fixation set provided.

A WRAS approved DC interrupter should be fitted to satisfy the UK regulations.
