

Ceramica Semi-Recessed Basin

Modern ceramic basin designed for compatible bathroom vanity furniture

Complete your bathroom furniture with this stylish Ceramica semi-recessed basin. The D-shaped design projects beyond the front of the vanity unit to create a generous washing area, while the single tap hole keeps the overall look clean and uncluttered.

Key features

- **Semi-recessed design** - combines neatly with compatible vanity furniture while allowing the front of the basin to project beyond the unit.
- **Compatible with Alpine vanity units** - designed to pair with compatible Alpine bathroom furniture.
- **Single tap hole** - suitable for a compatible mono basin mixer tap.
- **Built-in overflow** - helps manage excess water and requires a compatible slotted basin waste.
- **Ceramic construction** - provides a durable, smooth and easy-to-clean surface for everyday bathroom use.
- **D-shaped basin** - offers a gently curved front for a contemporary bathroom look.
- **35mm tap hole** - designed for a compatible single-hole basin mixer.
- **10-year guarantee** - for added reassurance.

What's included

- 1 x Ceramica Semi-Recessed Basin

Please note: vanity unit, tap and basin waste are not included and must be purchased separately.

Good to know

Because this basin has a built-in overflow, it requires a **slotted basin waste**. The single tap hole is designed for a compatible basin mixer. Always check vanity unit, tap and waste compatibility before installation.

Product information is based on specifications published on [Plumbworld.co.uk](https://www.plumbworld.co.uk). Please check compatibility and installation requirements before fitting.
