

Corner Anthracite Thermostatic Radiator Valve & Lockshield - 15mm

A matching corner thermostatic radiator valve and lockshield set designed for use with compatible radiators and towel rails. The corner configuration helps keep pipework close to the wall for a neat installation, while the thermostatic valve provides adjustable temperature control.

Product Specifications

Specification	Details
Brand	DuraTherm
Product type	Thermostatic radiator valve & lockshield set
Valve type	TRV and lockshield
Valve configuration	Corner
Connection size	15 mm
Colour / finish	Anthracite

Key Features

- Thermostatic valve allows adjustable radiator temperature control
- Matching lockshield valve included
- Corner configuration helps create a neat pipework arrangement
- 15mm connection size
- Suitable for compatible radiators and heated towel rails
- Coordinating anthracite finish

Installation Notes

Check radiator or towel rail connections, pipe size and pipe orientation before installation. Radiator valves should be fitted by a competent installer and the heating system should be isolated before work begins.
