

Corner Cross Head Anthracite Radiator Valves - 15mm

A pair of manually controlled corner radiator valves with traditional cross-head handles. The corner configuration provides a neat connection for suitable pipework, while the anthracite finish offers a coordinated look for compatible radiators and heated towel rails.

Key Features

- Pair of manually controlled radiator valves
- Corner configuration
- 15mm connection size
- Traditional cross-head handle design
- Anthracite finish
- Suitable for compatible radiators and heated towel rails
- 10-year guarantee

Installation Notes

Check the radiator or heated towel rail connections, pipe size and pipe orientation before installation. These are manual radiator valves rather than thermostatic valves. The heating system should be isolated before fitting, and installation should be carried out by a competent person.
