

Traditional Chrome Cross Head Angled Radiator Valves - 15mm

A pair of traditional angled manual radiator valves with classic cross-head controls. Designed for 15mm central-heating pipework, the valves combine quality brass construction with a chrome finish and are suited to traditional radiator and heated towel rail installations.

Product Specifications

Specification	Details
Brand	DuraTherm
Product type	Radiator valves
Valve type	Angled
Control type	Manual
Handle type	Cross head
Connection size	15 mm
Colour / finish	Chrome
Material	Brass
Style	Traditional
Test standard	BS 2767
Pressure tested	Yes
Lockshield included	No
Quantity	Pair
Weight	0.8 kg
Guarantee	10 years

Key Features

- Traditional cross-head design
- Pair of angled manual radiator valves
- 15mm pipe connections
- Quality brass construction
- Chrome finish
- Compact angled configuration
- Pressure tested to BS 2767
- 10-year guarantee

Installation Notes

Angled radiator valves are typically used where central-heating pipework approaches the radiator connection at approximately 90 degrees. Confirm the 15mm connection size and pipe arrangement before installation. These are manual valves rather than thermostatic radiator valves.
