Key Features

- Pair of straight radiator valves
- Manual control
- 15mm pipe connections
- High-quality brass construction
- Durable white finish
- Suitable for compatible radiators and heated towel rails
- Pressure tested to BS 2767
- 10-year guarantee

Installation Notes

Straight valves are suitable where the heating pipework and radiator or towel-rail connection align in a straight line, commonly where pipework rises from the floor. Confirm the 15mm connection size and installation arrangement before fitting.
