

Hive Hub v3 Wireless Heating Smart Home Hub - 851987

Central hub for connecting and controlling compatible Hive smart home devices

Bring your compatible Hive products together with the Hive Hub v3. Acting as the centre of your Hive smart home system, the Hub connects compatible devices to your home network so you can manage heating, smart plugs and other Hive products through the Hive app.

Key features

- **Connects compatible Hive devices** - brings supported Hive products together as part of one smart home system.
- **Hive app control** - manage connected heating, plugs and other compatible devices from one app, including when you're away from home.
- **Ethernet or Wi-Fi connectivity** - connect through your broadband router or wirelessly for flexible installation.
- **Stores settings and schedules** - keeps saved preferences and schedules available to help your Hive system run smoothly.
- **Smart heating insights** - supports energy-saving automations and helps you monitor your home's energy use.
- **Heating reminders** - can alert you if the heating has been left on after you leave home.
- **Reliable wireless coverage** - connects with compatible Hive devices up to 10 metres away.
- **Compatible with any broadband provider** - designed to work with most home broadband services.
- **Compact design** - the 90 x 90 x 24mm footprint allows it to sit neatly alongside your broadband router.
- **1-year warranty** - for added reassurance.

Technical specifications

Specification	Details
Brand	Hive
Product type	Smart home hub
Version	v3
Product code	851987
Connectivity	Ethernet & Wi-Fi
Compatible broadband	Any broadband provider
Wireless device range	Up to 10 metres
Height	90 mm
Width	90 mm
Depth	24 mm
Warranty	1 year

What's included

- 1 x Hive Hub v3
- Power supply
- USB cable
- Ethernet cable
- User guide

Setup

Connect the Hub to your broadband router using the supplied Ethernet cable or connect via Wi-Fi, then follow the setup instructions in the Hive app. Once connected, compatible Hive devices can be added to create and manage your smart home system.

Good to know

The Hive Hub v3 acts as the central connection point for compatible Hive products. It is particularly useful when building or expanding a Hive smart heating and smart home setup, allowing connected devices to be managed together through the Hive app.

Product information is based on specifications published on [Plumbworld.co.uk](https://www.plumbworld.co.uk). Please check Hive device and home-network compatibility before setup.
