Connected Cooking for more control in the kitchen

Get your own personal assistant in the kitchen with Connected Cooking. Control the settings of your oven--including timing and temperature--from your mobile device. Get recipe inspiration and preparation tips. Or use it to check the progress of your dishes from another room.

Pre-heat quicker. With Fast Heat Up

Make more of your time with the Fast Heat Up setting, pre-heating the oven 40% quicker than conventional models. Enjoy minimal waiting before beginning a bake, for great results on your schedule.

Command your cooking

With the responsive Command Wheel you have complete control over the cooking process, whether adjusting the time, temperature or function of your oven. With just a touch, your current cooking settings appear immediately on the clear colour LCD display for at-a-glance monitoring of your meal, making adjustments exact and precise.

A quicker way to toast and crisp

This highly efficient grill takes less time than traditional ovens, and will toast, crisp or brown your dishes to precision.
