

Merano Fluted Tall Basin Mixer Tap

High-rise single-lever basin mixer with distinctive fluted detailing

Designed to pair beautifully with a countertop basin, the Merano Fluted Tall Basin Mixer Tap combines extra height with simple single-lever control. Its curved round profile and textured fluted handle give it a distinctive contemporary look, while solid brass construction makes it a practical choice for everyday bathroom use.

Key features

- **High-rise basin mixer** - the taller design makes it ideal for use alongside compatible countertop basins.
- **Single-lever control** - adjusts hot and cold water flow and temperature from one easy-to-use handle.
- **Fluted handle** - textured detailing adds character to the clean, contemporary design.
- **Single tap-hole fitting** - designed for installation through one suitable tap hole.
- **Deck-mounted installation** - fits to a compatible worktop, vanity surface or basin mounting area.
- **Solid brass construction** - provides a durable tap body for regular bathroom use.
- **Suitable for all water systems** - suitable for compatible systems operating from low pressure upwards.
- **10-year guarantee** - covers manufacturing defects for added reassurance.
