### Key Features

- Designed for traditional double-bar / 2-column radiators
- Suitable for compatible horizontal and vertical radiator designs
- 270mm high
- Supports the underside of the radiator
- Supplied as a pair
- Anthracite finish
- 10-year guarantee

### Installation Notes

Confirm compatibility with the specific radiator before installation. These legs provide additional underside support and should be used alongside the radiator manufacturer's required fixing method. Ensure the radiator is securely installed and level.
