Dimensional information

Verified dimensions shown in millimetres. Drawing is schematic and not to scale.

Installation notes

This is the **two tap-hole COMSLWB2** version of the RAK-Compact slimline cloakroom basin. It is designed for wall-hung installation and is supplied with fixing bolts. The built-in overflow means a compatible **slotted basin waste** is required. Taps and waste are supplied separately unless stated otherwise.

Product identification

COMSLWB2 is also listed under RAK manufacturer part number **CO2501NCHAWHA** and EAN **5056176000844**. These identifiers refer to the 450mm Compact slimline basin with **two tap holes**.

Dimensions and specifications are based on published RAK/retailer technical information for COMSLWB2 / CO2501NCHAWHA and are subject to normal manufacturing tolerances. Check installation requirements before fitting.
