VERIFIED DIMENSIONS

510 projection | 370 width | 400 pan height

Only dimensions verified on the Plumbworld product listing are shown. Drawing is schematic and not to scale.

Product features

The COMBTWPAN is a compact back to wall WC pan with a **rimless design**, helping make the inside of the pan easier to clean. Its closed-back configuration keeps pipework concealed for a neat installation, while the floor-mounted ceramic pan is designed for use with a compatible concealed cistern.

What's included

1 x RAK Ceramics Compact Rimless Back to Wall Pan only. A toilet seat and cistern are not included and must be selected separately.

Installation notes

Check the selected concealed cistern, toilet seat and waste connection for compatibility before installation. The Plumbworld specification identifies this pan as a P-trap model.

Product details and dimensions are based on the current Plumbworld listing for COMBTWPAN. Dimensions are subject to normal manufacturing tolerances. Check installation requirements before fitting.
