

RAK Ceramics Compact Semi-Recessed Bathroom Basin - 450mm

Two tap-hole semi-recessed basin | Product code: COM45SR2

Designed for bathrooms where space is at a premium, the RAK Ceramics Compact semi-recessed basin combines a practical 450mm width with a curved, space-conscious profile. The basin projects partly beyond compatible bathroom furniture, giving you a comfortable washing area while allowing useful storage space beneath.

Key features

- **Two pre-drilled tap holes** - designed for use with a compatible pair of separate basin taps.
- **Semi-recessed design** - combines with suitable bathroom furniture while allowing the front of the basin to project beyond the unit.
- **Compact 450mm width** - a practical choice for smaller bathrooms, cloakrooms and en-suites.
- **Vitreous china construction** - durable, hygienic and straightforward to keep clean.
- **Built-in overflow** - helps manage excess water and requires a compatible slotted basin waste.
- **Curved basin profile** - gives the Compact range a clean, modern appearance.
- **Space-conscious 360mm projection** - provides a useful washing area without taking up excessive room.
- **25-year manufacturer's guarantee** - for long-term reassurance.

What's included

- 1 x RAK Ceramics Compact Semi-Recessed Basin - COM45SR2

Please note: taps, basin waste and bathroom furniture are not included.

Good to know

This is the **two tap-hole COM45SR2 model**. Because the basin includes an overflow, a compatible **slotted basin waste** is required. Check the dimensions of the basin and intended furniture installation before fitting.

Product information has been compiled from the Plumbworld listing and corroborating product specifications for RAK Ceramics COM45SR2. Always check installation requirements and compatibility before fitting.
