

The Octaris LED Mirror redefines modern elegance with its bold octagon-shaped design. Perfect for those who love a statement piece, its striking geometric form instantly transforms any bathroom, dressing area, or living space into a showcase of contemporary style.

Crafted with a frameless finish, the Octaris radiates sophistication while maintaining a clean, minimalist look. Its subtle backlit illumination provides a soft, ambient glow that enhances your space, whether you're getting ready for the day or winding down in the evening. The integrated infrared sensor switch allows you to activate the lighting with a simple wave of your hand—no touching required. This means no fingerprints, no smudges, and a mirror that stays flawless day after day.
