

The Veyra LED Mirror is a sophisticated take on modern design, featuring a distinctive landscape octagon shape that adds balance and character to any interior. Wider in form, it creates a striking focal point that enhances both bathrooms and living spaces with a perfect blend of style and function.

With its frameless silhouette, the Veyra exudes understated luxury, while the soft backlit illumination casts a warm, inviting glow. The mirror's infrared sensor technology allows for effortless, touch-free control, keeping the surface pristine and smudge-free at all times.

Whether installed above a vanity or used as a statement wall piece, the Veyra LED Mirror elevates your space with its bold geometry, modern lighting, and refined presence
