

Brushed Nickel 15mm Straight TRV and Lockshield

Product Code: 129016

A straight thermostatic radiator valve and matching lockshield set designed to provide individual temperature control at the radiator. The robust brass construction and brushed nickel finish make the set suitable for radiators and heated towel rails where a straight valve connection is required.

Product Specifications

Specification	Details
Brand	Towelrads
Product type	TRV and lockshield radiator valve set
Product code / MPN	129016
EAN	7426788023940
