Warranty	2 years

Key Features

- Corner TRV and matching lockshield supplied as a set
- Thermostatic control for individual room temperature adjustment
- Six temperature settings
- Liquid sensor for responsive temperature control
- Robust brass construction
- 15mm connection size
- Round valve design
- Suitable for central heating radiator installations

Installation Notes

Corner valves are designed for installations where the pipework and radiator connection arrangement benefits from the valve body sitting neatly between the radiator and wall. Check the radiator connection position, pipework layout and system compatibility before installation.

Reference: Specifications compiled from Towelrads manufacturer information and UK retailer technical data for model 129023. Product dimensions and temperature range should be checked against current manufacturer documentation before installation.
