

White 15mm TRV Dual Fuel Corner Valve

Product Code: 129041

A thermostatic corner valve designed for dual-fuel heated towel rails. Its integrated dual-fuel connection removes the need for a separate T-piece and allows the towel rail's central-heating and electric heat sources to be controlled separately.

Product Specifications

Specification	Details
Brand	Towelrads
Product type	Dual fuel thermostatic radiator valve
Product code / MPN	129041
EAN	7426968150626
Connection style	Corner
Connection size	15 mm
Inlet connection	15 mm compression
Outlet connection	1/2" BSP
Control type	Thermostatic
Material	Brass
Colour	White
RAL colour code	9010
Shape	Round
Sensor type	Liquid sensor
Temperature range	7-32°C
Frost protection	Yes
Dual fuel compatible	Yes
Separate T-piece required	No
Heating element included	No
Warranty	2 years

Key Features

- Designed for dual-fuel heated towel rails
- Thermostatic hot-water temperature control
- Allows separate control of central-heating and electric operation
- Integrated design removes the need for a separate T-piece
- Corner valve configuration
- Strong brass construction

- 15mm compression connection
- Liquid sensor and frost-protection setting

Installation Notes

This product is the corner TRV only; an electric heating element is not included. It is intended for a compatible dual-fuel towel rail installation and is designed to simplify fitting by eliminating a separate T-piece. Check the towel rail connections, element compatibility and pipework arrangement before installation.

Reference: Specifications cross-checked against current Plumbworld and Plumbnation product information for Towelrads model 129041. Retailer sources differ on the stated guarantee period; the 2-year warranty shown here follows the current Plumbnation technical specification.
